

Features & Benefits

- ◆ Foam injection molded with compatibilized materials, providing superior durability, exceptional impact resistance, and optimized performance.
- ◆ Designed with an optimal footprint and 4-way entry, ensuring efficient trailer loading and full versatility in the warehouse and during delivery.
- ◆ Anti-slip edges designed for effortless loading.
- ◆ Designed for seamless automation, compatibility with conveyor systems, and stacking.
- ◆ Open design allows for easy washing and maintenance.
- ◆ Sustainable production utilizing 100% Green Circle Certified recycled plastic made from post-consumer materials. It is fully recyclable at the end of its life, enabling reuse and contributing to the Circular Plastic Economy.
- ◆ Designed for safe in-store display, ensuring product integrity and customer safety.
- ◆ The perimeter lip helps reduce product damage by securing items and minimizing unnecessary related costs.

Options

- ◆ Available in black only.
- ◆ Hot-stamped logos are available in various color options for customer-specific branding and can be applied on all four sides.
- ◆ RFID capability.
- ◆ Cost-effective leasing options are available.
- ◆ Exclusive buy-back recycling program provides exceptional value at the end of the product life cycle, promoting sustainability and supporting the Circular Plastic Economy.

Specifications and Capacities

Length = 48"

Width = 40"

Height = 6"

Dynamic load rating = 6,000 lbs.

Static load rating = 30,000 lbs.

Racking load rating = 1,491 lbs.

Trailer QTY = 560

Weight = 52 lbs.
